

SECURITY VEST

The Security Vest (AVS) is designed for use by security professionals. The vest provides protection to the front, back & sides of the body plus the shoulders. Both male & female versions are available.

The outer cover is manufactured from a tough Cordura fabric which resists wear and retains a smart appearance. The Internal face of the cover is made from a polyester spacer fabric which wicks away perspiration and encourages ventilation. The cover has the following features:

Standard Features

- Reflective banding
- Transparent ID badge pouch
- Velcro patches for attaching logo or name badge
- Loops for retaining PTT or handset
- Front storage pocket

Dimensions

The AVS in size Large has a protective area of 0.38m².

The weight of a complete vest will depend on the protection level selected.

Protection Levels

The AVS is available in a wide range of HOSDB & NIJ protection levels. Please refer to the Jack Ellis Armour Systems Datasheet for further information.
